

## Yellow land need help

Dear Mr. Clowny,

Over by yellow land there have been some troubles! There are fluffy green and blue cows that are growing bigger and bigger every day! But thats not it. Fish can now walk, dogs can now talk and rhinos can squawk. I don't know what is exactly happening, but they're destroying everything! Houses are now to the ground, there is water everywhere and we can't use our pinky tinky phones or our ipads! I know you're in Queensland right now with your family, but we can't wait any longer! Could you please help us?

Sincerely, Max the Sax
